JOURNAL OF SAFETY RESEARCH

www.elsevier.com/locate/jsr

Annual index: vol. 33/2002

Titles:

Aggressive behaviour while driving as predictor of self-reported car crashes. Chliaoutakis, J. E., Demakakos, P. T., Tzamalouka, G., Bakou, V., Koumaki, M., & Darviri, C. *33*(4), 431–443.

A model of fishing vessel accident probability. Jin, D., Kite-Powell, H., Thunberg, E., Solow, A., & Talley, W. *33*(4), 497–510.

An algorithm for assessing the risk of traffic accident. Ng, K. -S., Hung, W. -T., & Wong, W. -G. *33*(3), 387–410.

An analysis of motorcycle injury and vehicle damage severity using ordered probit models. Quddus, M. A., Noland, R. B., & Chin, H. C. *33*(4), 445–462.

An evaluation of the implementation of ignition interlock in California. DeYoung, D. *33*(4), 473–482.

A study of stopping propensity at matured red light camera T-intersections. Lum, K. M., & Wong, Y. D. *33*(3), 355–369.

A survey of forest workers in New Zealand. Do hours of work, rest, and recovery play a role in accidents and injury? Lilley, R., Feyer, A. -M., Kirk, P., & Gander, P. *33*(1), 53–71.

Awareness of zero tolerance laws in three states. Ferguson, S. A., & Williams, A. F. *33*(3), 293–299.

Changes in logging injury rates associated with use of feller–bunchers in West Virginia. Bell, J. L. *33*(4), 463–471.

Comparison of two fatal occupational injury surveillance systems in the United States. Biddle, E. A., & Marsh, S. M. *33*(3), 337–354.

Construction workers' falls through roofs: fatal versus serious injuries. Kines, P. *33*(2), 195–208.

Distractions and the risk of car crash injury: the effect of drivers' age. Lam, L. T. *33*(3), 411–419.

Effects of uncertainty, transmission type, driver age and gender on brake reaction and movement time. Warshawsky-Livne, L., & Shinar, D. *33*(1), 117–128.

Electronic version of the Encyclopaedia of Occupational Health and Safety as a source of definitions (special article). Dryzek, H. *33*(2), 155–163.

Fatality risk assessment and modeling of drivers responsibility for causing traffic accidents in Dubai. Abdalla, I. M. *33*(4), 483–495.

Forfeiture programs in California: why so few? Peck, R., & Voas, R. B. *33*(2), 245–258.

From the traditional concept of safety management to safety integrated with quality (Editorial). Herrero, S. G., Saldana, M. A. M., Manzanedo del Campo, M. A., & Ritzel, D. O. *33*(1), 1–20.

PII: S0022-4375(02)00046-4

Investing in safety. An analytical precautionary principle. Farrow, S., & Hayakawa, H. *33*(2), 165–174.

Occupational safety and health in Spain (special international report). SeSe, A., Palmer, A., Cajal, B., Montano, J. J., Jimenez, R., & Llorens, N. *33*(4), 511–525.

Offshore safety case approach and formal safety assessment of ships. Wang, J. *33*(1), 81–115.

Organizational safety: which management practices are most effective in reducing employee injury rates? Vredenburgh, A. G. *33*(2), 259–276.

Perceived safety climate, job demands, and coworker support among union and nonunion injured construction workers. Gillen, M., Baltz, D., Gassel, M., Kirsch, L., & Vaccaro, D. *33*(1), 33–51.

Rate of occupational accident in the mining industry since 1950: a successful approach to prevention policy (special international report). Breuer, J., Hoffer, E. -M., & Hummitzsch. *33*(1), 129–141.

Reconstructing human contributions to accidents: the new view on error and performance. Dekker, S. W. A. *33*(3), 371–385.

Safety teams. Government and business organizations want them and use them, but are they legal? (editorial). Muscatello, J. R., & Heshizer, B. P. *33*(1), 21–32.

Student and faculty issues in distance education occupational safety and health graduate programs. Fender, D. L. *33*(2), 175–193.

The effect of first aid training on Australian construction workers' occupational health and safety motivation and risk control behavior. Lingard, H. *33*(2), 209–230.

The Illinois .08 law: an evaluation. Voas, R. B., Tippetts, A. S., & Taylor, E. P. *33*(1), 73–80.

The relationship between employees' perceptions of safety and organizational culture. O'Toole, M. *33*(2), 231–243.

Turning gap acceptance decision-making: the impact of driver distraction. Cooper, P. J., & Zheng, Y. *33*(3), 321–335.

Using an injury diary to describe the ecology of children's daily injuries. Schwebel, D. C., Binder, S. C., & Plumert, J. M. *33*(3), 301–319.
